

# *Juliet*®

12" HIGH DEFINITION CUTTER

**Siser**®

For the next chapter in your crafting story.

# SIMPLY ADVANCED

The Juliet® by Siser® has been designed to be not only advanced, but intuitive as well. Loaded with powerful features that are easy to understand, *Juliet* is built to seamlessly adapt to your workflow—no matter your experience or skill level.

With a high quality motor that's up to 60% faster than other desktop cutters while emitting nearly half as much noise, an ultra-precise machine head, and adjustable pinch-roller feeding system, *Juliet* earns the title of a high definition cutter.

# PACKED WITH FEATURES

Take the guesswork out of cutting. *Juliet* comes with dozens of pre-set cut settings for all *Siser* materials. Plus, you can even create and edit your own custom cut settings!

Thanks to adjustable pinch rollers, you're not limited to a specific cut area. Utilize the entire width of the cutter for your projects - and you can choose whether or not to use a cutting mat!

Have a jumbled mess of cords coming out of your computer? We get it. That's why *Juliet* can connect to your PC or Mac via WiFi for a reliable wireless experience!

Print & cut projects are no problem! Thanks to a camera built-in to the machine head, *Juliet* can read registration marks and cut full color designs with ease.

Small details equal huge potential! Thanks to its pinpoint accuracy, *Juliet* can cut some of the most intricate details with precision down to .01mm without skipping a beat.

*Juliet* does more than just cut! Create beautifully drawn designs using *Siser* Sublimation Markers (or other drawing utensils) with the included marker adapter.

# LEONARDO<sup>®</sup> DESIGN STUDIO

A powerful cutter is nothing without powerful software. That's why Leonardo<sup>®</sup> Design Studio was created to be the perfect companion software to the *Juliet* cutter. Easily connect *Juliet* to *Leonardo* Design Studio via either the included USB cable or a WiFi connection and you're ready to go.

The best part? *Leonardo* Design Studio isn't just cut software—it's also an incredibly versatile workspace. Use the built-in canvas and tools to create your own artwork, or download pre-made files from the extensive art library. You can also view swatches and specs for every Siser<sup>®</sup> material, get inspiration from our handmade projects, learn new skills with tutorial videos, and so much more - all within a single software!

*Leonardo* Design Studio is free with every *Juliet* purchase.
