35 Turnaround Times

heat transfers are the

Ultimate Printing Choice

Transfers apply in seconds! There's no need for significant capital investment or a large space for manufacturing. Pick a corner in a room, set up your heat press, and start making money.

Simply set your shirt on the press, position the transfer, and apply. The result is a quality-printed product that will last the life of the garment - lab tested and guaranteed!

With heat transfers you can print on t-shirts, hoodies, pants, shoes, bags, can coolers, and more. The versatility of heat transfers makes it possible to decorate countless items.

Transfer Types

screen printed transfers

Screen printed transfers, also known as plastisol or water-based transfers, are printed using plastisol or water-based inks onto a special release paper or film instead of a garment. The carrier release paper allows the ink design to transfer to the garment upon heat application. When applied properly, screen printed transfers will last the life of the garment.

full color transfers

The latest transfer technology combines screen print and full color digital inks to produce a transfer that is the best of both worlds: the feel and durability of a screen print transfer paired with the characteristics of a full color transfer. Welcome to the revolution of apparel decoration!

What To Use When

Take the guesswork out of choosing the best transfer type for your job or project. This handy chart outlines which transfer will give you the best results and profit margins.

Apparel Quantity (based on one full-front design)

6 | 12 | 24 | 36 | 48 | 72+

transfer selector tool

Use our [intuitive tool](#) to ensure transfer compatibility with your chosen fabric while optimizing your profit margin. We'll recommend the most cost-effective decoration technique, making every project a success.

real ink. real fast.

Screen Printed Transfers

- Keep your screen printing in house.
- We print it, you profit.
- Phthalate-free plastisol ink.
- Durable, classic feel.
- Gang sheets and quantity price breaks for cost-effective pricing.

Goof Proof®

screen printed transfers

OEKO
TEX®
STANDARD
100

Hohenheim 1111

**Easy Prints®
Layout:**
QVA-37

Goof Proof® is our best-selling product and the go-to transfer for most of your decoration needs. Offering the soft hand of plastisol ink, Goof Proof® applies quickly and offers superior opacity. Choose from two sheet sizes (11.25" x 14" and 12.5" x 17.5") or single image sizes (12.75" x 9" and 11" x 14") and over 70 phthalate-free stock ink colors.

Recommended Fabrics: Cotton, Polyester, Cotton/Poly Blends

- 1 Preheat Your Apparel**
Place your apparel on the platen and press for 3-5 seconds.
- 2 Position Transfer & Press**
Place the transfer ink-side down on the apparel. Close and press.
- 3 Peel Transfer Carrier**
Peel off the backing quickly in a smooth, even motion.

Application

SINGLE COLOR:
100% cotton & cotton/poly blends

Set Your Heat Press

Temperature: 365°F
Time: 4-6 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

- 1. Preheat Your Apparel**
Place apparel on platen.
Press for 3-5 seconds.
- 2. Position Your Transfer & Press**
Place the transfer ink-side down on apparel. Close machine and press for 4-6 seconds.
- 3. Peel Transfer Carrier **HOT****
Open machine and peel off the backing immediately in a smooth, even motion.

SINGLE COLOR (LOWER TEMP):
100% polyester

Set Your Heat Press

Temperature: 325°F
Time: 10-12 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

- 1. Preheat Your Apparel**
Place apparel on platen.
Press for 3-5 seconds.
- 2. Position Your Transfer & Press**
Place the transfer ink-side down on apparel. Close machine and press for 10-12 seconds.
- 3. Peel Transfer Carrier **HOT****
Open machine and peel off the backing immediately in a smooth, even motion.

MULTI COLOR:

Set Your Heat Press

Temperature: 365°F
Time: 10 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

- 1. Preheat Your Apparel**
Place apparel on platen.
Press for 3-5 seconds.
- 2. Position Your Transfer & Press**
Place the transfer ink-side down on apparel. Close machine and press for 10 seconds.
- 3. Peel Transfer Carrier **HOT****
Open machine and peel off the backing immediately in a smooth, even motion.

Do not use a pillow or cover sheet for initial application.

Goof Proof® Premium

clear carrier. premium results.

The wait is over! Goof Proof® Premium takes your favorite transfer to the next level with a clear carrier that makes placement on shirts faster and easier than ever. Goof Proof® Premium delivers shine-free, vibrant prints in 26 bold colors. With a 12.5" x 17.5" sheet size, this is the go-to choice for durability, affordability, and top-notch results!

Recommended Fabrics: Cotton, Polyester, Cotton/Poly Blends

- 1 Preheat Your Apparel**
Place your apparel on the platen and press for 3-5 seconds.
- 2 Position Transfer & Press**
Place the transfer ink-side down on the apparel. Close and press.
- 3 Peel Transfer Carrier**
Peel off the backing quickly in a smooth, even motion.

Application

Set Your Heat Press

Temperature: 320°F
Time: 10 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

1. Preheat Your Apparel

Place apparel on platen.
Press for 3-5 seconds.

2. Position Your Transfer & Press

Place the transfer ink-side down on apparel.
Close machine and press for 8-10 seconds.

3. Peel Transfer Carrier **HOT**

Open machine and peel off the backing, immediately, in a smooth and even motion.

Ink Colors

BLACK	WHITE	RED	MAROON	TENNESSEE ORANGE
ORANGE	TEXAS ORANGE	YELLOW	GOLD	MAIZE
VEGAS GOLD	METALLIC GOLD	KELLY GREEN	DARK GREEN	CAROLINA BLUE
COLUMBIA BLUE	MID BLUE	ROYAL	MIDNIGHT BLUE	NAVY BLUE
PURPLE	CEMENT 427 C	METALLIC SILVER	GREY	CHARCOAL
NEON PINK				

Goof Proof® Watermark

add a subtle shine that makes any design pop

Goof Proof® Watermark takes our best-selling Goof Proof® transfer to the next level. Using a special-effect gloss ink, it creates a sleek, watermarked finish that catches light and highlights artwork details – no extra equipment or complicated steps required.

Recommended Fabrics: Cotton, Polyester, Cotton/Poly Blends

- 1** Preheat Your Apparel
Place your apparel on the platen and press for 3-5 seconds.
- 2** Position Transfer & Press
Place the transfer ink-side down on the apparel. Close and press.
- 3** Peel Transfer Carrier
Peel off the backing quickly in a smooth, even motion.

Application

Set Your Heat Press

Temperature: 320°F
Time: 10 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

1. Preheat Your Apparel

Place apparel on platen.
Press for 3-5 seconds.

2. Position Your Transfer & Press

Place the transfer ink-side down on apparel.
Close machine and press for 8-10 seconds.

3. Peel Transfer Carrier **HOT**

Open machine and peel off the backing, immediately, in a smooth and even motion.

Ink Colors

BLACK	WHITE	RED	MAROON	TENNESSEE ORANGE
ORANGE	TEXAS ORANGE	YELLOW	GOLD	MAIZE
VEGAS GOLD	METALLIC GOLD	KELLY GREEN	DARK GREEN	CAROLINA BLUE
COLUMBIA BLUE	MID BLUE	ROYAL	MIDNIGHT BLUE	NAVY BLUE
PURPLE	CEMENT 427 C	METALLIC SILVER	GREY	CHARCOAL
NEON PINK				

Hot Split Retro

screen printed transfers

**Easy Prints®
Layout:**
QAL-647

Hot Split Retro is screen printed without adhesive so the ink melts into the apparel fabric, resulting in a plastisol transfer with an incredibly soft, light feel. This transfer is ideal for thin fabrics and provides less opacity than other transfers, which helps give a fashionable and vintage vibe.

Recommended Fabrics: Cotton, Polyester, Cotton/Poly Blend

- 1 Preheat Your Apparel**
Place your apparel on the platen and press for 3-5 seconds.
- 2 Position Transfer & Press**
Place the transfer ink-side down on the apparel. Close and press.
- 3 Peel Transfer Carrier**
Peel off the backing in a smooth, even motion.

Application

Set Your Heat Press

Temperature: 360-375°F
Time: 8-10 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

1. Preheat Your Apparel

Place apparel on platen.
Press for 3-5 seconds.

2. Position Your Transfer & Press

Place the transfer ink-side down on apparel.
Close machine and press for 8-10 seconds.

3. Peel Transfer Carrier **HOT**

Open machine and peel off the backing, immediately, in a smooth and even motion.

Tips:

- **Large, Solid Ink Areas**
Hot Split Retro is ideal if you have large ink areas in your design. The ink will melt into the fibers of the shirt, giving a soft hand feel without the heaviness.
- **Light Ink colors**
A few of our stock colors, Gold, Yellow, Tan, and the Neon colors, will not show up well on dark garments when using the Hot Split Retro ink formula. For those colors, we recommend switching to Goof Proof®. All other colors in Hot Split Retro will work on all colored apparel.

Do not use a pillow or cover sheet for initial application.

Elasti Prints®

screen printed transfers

OEKO
TEX®
STANDARD
100
22.HUS:46520
Hohenheim 1171

Easy Prints®

Layout:

QFB-255

Turn down the heat on performance wear! This screen printed heat transfer has a low temperature application designed to reduce scorching and is perfect for 100% polyester uniforms, bags, and moisture-wicking apparel. There are two sheet sizes available (11.25" x 14" and 12.5" x 17.5") to maximize your cost efficiency.

Recommended Fabrics: 100% Polyester

1 Preheat Your Apparel

Place your apparel on the platen and press for 3-5 seconds.

2 Position Transfer & Press

Place the transfer ink-side down on the apparel. Close and press.

3 Peel Transfer Carrier

Peel off the backing in a smooth, even motion.

Application

Set Your Heat Press

Temperature: 290°F

Time: 15 Seconds

Pressure: Medium/Firm, 6-8 (60-80 psi)

1. Preheat Your Apparel

Place apparel on platen.
Press for 3-5 seconds.

2. Position Your Transfer & Press

Place the transfer ink-side down on apparel.
Close machine and press for 15 seconds.

3. Peel Transfer Carrier **COLD**

Open machine and peel off the backing, once the carrier is cold to the touch, in a smooth and even motion.

Tips:

• Cold Peel

You can peel the carrier anytime after 2-3 minutes, as long as the carrier has cooled down and is no longer retaining heat. Your results will be the same regardless of when you peel.

• Outline Required On Art

Make sure all edges of your multi-colored artwork, both inside and along the perimeter, have the same colored outline. You can add a clear outline in the 'Options' screen of Easy View®, but keep in mind that this will be counted as an additional color in your screen print pricing.

Do not use a pillow or cover sheet for initial application.

Puff

screen printed transfers

**Easy Prints®
Layout:**
QCL-59

Standard plastisol ink is paired with a puff print additive to give a unique 3D effect after heat application. Puff ink can be combined with your favorite Goof Proof® ink colors for a heightened dimensional finish. Puff works best with large, bold designs and is perfect for fashionable apparel. Available in 66 stock colors.

Recommended Fabrics: Cotton, Polyester, Cotton/Poly Blends

- 1 Preheat Your Apparel**
Place your apparel on the platen and press for 3-5 seconds.
- 2 Position Transfer & Press**
Place the transfer ink-side down on the apparel. Close and press.
- 3 Peel Transfer Carrier**
Peel off the backing quickly in a smooth, even motion.

Application

SINGLE PUFF COLOR:

Set Your Heat Press

Temperature: 360-370°F
Time: 5 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

- 1. Preheat Your Apparel**
Place apparel on platen.
Press for 3-5 seconds.
- 2. Position Your Transfer & Press**
Place the transfer ink-side down on apparel. Close machine and press for 5 seconds.
- 3. Peel Transfer Carrier **HOT****
Open machine and peel off the backing immediately in a smooth, even motion.

2 COLOR (PUFF + GOOF PROOF® COMBO):

Set Your Heat Press

Temperature: 360-370°F
Time: 10 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

- 1. Preheat Your Apparel**
Place apparel on platen.
Press for 3-5 seconds.
- 2. Position Your Transfer & Press**
Place the transfer ink-side down on apparel. Close machine and press for 10 seconds.
- 3. Peel Transfer Carrier **HOT****
Open machine and peel off the backing immediately in a smooth, even motion.

Do not use a pillow, cover sheet, or lower platen cover for initial application. Do not double press once applied.

Glow-In-The-Dark

screen printed transfers

Easy Prints®
Layout:
QAL-662

Create fun effects for holidays, special events, and more with Glow-in-the-Dark transfers! With a white appearance in daylight and a bright green glow in the dark, use on dark apparel for the best results.

Recommended Fabrics: Cotton, Polyester, Cotton/Poly Blends

- 1 Preheat Your Apparel**
Place your apparel on the platen and press for 3-5 seconds.
- 2 Position Transfer & Press**
Place the transfer ink-side down on the apparel. Close and press.
- 3 Peel Transfer Carrier**
Peel off the backing quickly in a smooth, even motion.

Application

Set Your Heat Press

Temperature: 340°F
Time: 10 Seconds
Pressure: Medium/Firm, 6-8 (60-80 psi)

1. Preheat Your Apparel

Place apparel on platen.
Press for 3-5 seconds.

2. Position Your Transfer & Press

Place the transfer ink-side down on apparel.
Close machine and press for 10 seconds.

3. Peel Transfer Carrier **WARM**

Open machine and peel off the backing after 5 seconds in a smooth, even motion.

Tips:

- **Dark Fabrics**
This transfer works best on dark-colored apparel.
- **Recharging Your Glow**
The transfers glow properties can be recharged by normal room lighting or when outside in the daylight.

Do not use a pillow or cover sheet for initial application.

Reflective

screen printed transfers

REFLECTIVE SILVER

Whether for safety or fashion, be seen with reflective screen printed transfers. Printed with water-based, screen printed ink for durability and a soft hand, these transfers provide a reflective luminance of 400-450 CD. Reflective transfers are metallic silver in the daylight while reflecting direct light at night.

1 Preheat Your Apparel

Place your apparel on the platen and press for 3-5 seconds.

2 Position Transfer & Press

Place the transfer ink-side down on the apparel. Close and press.

3 Peel Transfer Carrier

Peel off the backing in a smooth, even motion.

Application Cotton, Polyester, Cotton/Poly Blends.

Set Your Heat Press

Temperature: 315°F

Time: 15 Seconds

Pressure: Medium/Firm, 6-8 (60-80 psi)

1. Preheat Your Apparel

Place apparel on platen.

Press for 3-5 seconds.

2. Position Your Transfer & Press

Place the transfer ink-side down on apparel.

Close machine and press for 15 seconds.

3. Peel Transfer Carrier **COLD**

Open machine and peel off the backing, once the carrier is cold to the touch, in a smooth and even motion.

Tips:

• Cold Peel

You can peel the carrier anytime after 2-3 minutes, as long as the carrier has cooled down and is no longer retaining heat. Your results will be the same regardless of when you peel.

• Ideal Transfer For Emergency Services Apparel

Pair this transfer type with any of our Police, Fire, or EMS layouts in our Easy View® online designer.

Do not use a pillow or cover sheet for initial application.

Tips:

- **Elasti Print® Application**
If applying with Champ Pro numbers, you can apply Express Names™ at same time at 290°F, for 15 seconds.
- **Names + Numbers**
When applying with numbers, simply touch the edges of the transfer papers together for perfect spacing.

Champ Pro™

Express Names™

Easily customize team uniforms using stock screen printed numbers! Cater to the entire team with a variety of digit sizes— 4", 6", 8", and 10", available in a range of colors using our popular ink formulas, Goof Proof® and Elasti Prints®. Specifically designed for heat-sensitive polyester uniforms, Champ Pro™ is exclusively offered in Elasti Prints® ink. For sizes under 3", use Express Names™ to input the necessary numbers in the name field.

Recommended Fabrics: Cotton, Polyester, Cotton/Poly Blends.

- 1 Preheat Your Apparel**
Place your apparel on the platen and press for 3-5 seconds.

- 2 Position Transfer & Press**
Place the transfer ink-side down on the apparel. Close and press.

- 3 Peel Transfer Carrier**
Peel off the backing in a smooth, even motion.

Application

CHAMP/EXPRESS NAMES™:

Set Your Heat Press

Temperature: 365°F
Time: 4-6 Seconds
Pressure: Medium, 6 (60 psi)

- 1. Preheat Your Apparel**
Place apparel on platen.
Press 3-5 seconds to remove moisture.
- 2. Position Your Transfer & Press**
Place the transfer ink-side down on apparel. Close machine and press for 4-6 seconds.
- 3. Peel Transfer Carrier HOT**
Open machine and peel off the backing immediately in a smooth and even motion.

CHAMP PRO™:

Set Your Heat Press

Temperature: 290°F
Time: 15 Seconds
Pressure: Medium, 6 (60 psi)

- 1. Preheat Your Apparel**
Place apparel on platen.
Press 3-5 seconds to remove moisture.
- 2. Position Your Transfer & Press**
Place the transfer ink-side down on apparel. Close machine and press for 15 seconds.
- 3. Peel Transfer Carrier COLD**
Open machine and peel off the backing, once the carrier is cold to the touch, in a smooth and even motion.

Do not use a cover sheet or a pillow.

3 Ways to Order Numbers:

- Application Ruler
- What To Use When Chart
- Sizing T-Shirt
- Cover Sheets
- Mousepad
- Test Strips
- **\$15** Product credit

maximize your profits

Gang Sheets

Make the most out of your transfer sheets by grouping designs together. Each different design that can fit on a sheet is cutting your bottom line costs per order. Know the sheet sizes and start increasing your profits!

- Plastisol Screen Printed Transfer: 11.5" x 14", Jumbo 12.5" x 17.5"
- UltraColor MAX™ DTF Transfer: Sm Sheet 12" x 22", Lg Sheet 24" x 22"
- UltraColor PRO™, Stretch™ : 11.5" x 18"
- Reflective: 12.5" x 17.5"

Screen printed transfers are priced per color.

UltraColor® transfers are digitally printed so there are no additional color costs.

Profitable Layouts

shirt tag layouts

Promote yourself! Branding shirts with custom tags promotes your business. Order a full sheet or you can always add them to empty space on your gang sheet.

league sponsor strips

Sponsor strip layouts save you money for league orders. Choose the ink color and letter height, and replace each line with the sponsor's names. Use Express Names™ for any unique team colors!

class, team, or event lists

Printing a shirt with a list of names or events is easy in the Easy View® Designer. Just upload your .txt file list of names and adjust the layout as needed for the number of names.

signature t-shirts

Shirts filled with a class, camp, or team's signatures are a special way to commemorate a year or season. Order a custom template and collect the signatures. We print it and you press to create a shirt that will bring memories!

custom clip art

If you use custom art in two or more order screen printed orders, make it a custom clip art. For a small fee, we will set it up in Easy View® for your own personal use. Once set up, all future screen printed orders get the less expensive, Easy Prints® pricing.

one stop shopping

Wholesale Apparel

Find stylish, top-quality apparel that will become canvases for decoration. Same-day shipping on most items, with ten warehouses nationwide - most items are received in 1-3 days. Low prices. No minimums. Free shipping on orders over \$300.

all you need is a Heat Press

There Are Heat Presses Then There's

You take your business seriously, so it's important to use equipment that delivers quality and consistency. Compared to hobby presses and import presses, professional presses give you:

- Laser-cut steel framework with robotic welds
- Flat, even platens for perfect pressure
- Center-applied pressure – no pinch points!
- Better heat retention and accurate temperature readings

A2Z Press

\$800

Value priced, swing-away heat press. Made in the U.S.A., it gives you reliable transfer printing results and a heat free workspace. Excellent choice for home-based businesses, crafters, new t-shirt businesses, or as a second press.

MerchMaker

9x12- \$349
15x15- \$599

Its lightweight, compact design fits any space, while the pull-out lower platen makes garment loading easy and heat-free. With precise temperature and pressure distribution, you can take the guesswork out of heat printing and confidently tackle more projects.

How To Order

► transferexpress.com/getting-started

Our Artwork Or Yours?

Whether you are creating your designs in Easy View® or sending us your custom art, it's quick and easy to order.

- Open Easy View® Designer
- Create your art by adding text, clip art, and/or a layout, or upload your own art.
- Choose Print Method
- Choose Transfer Type
- Choose Apparel Color
- Enter Quantity:
 - For a single image, enter how many of the image you need
 - If you set up a gang sheet, enter how many sheets you need
- Click "Done" and add to cart
- Complete checkout by entering shipping, and payment method

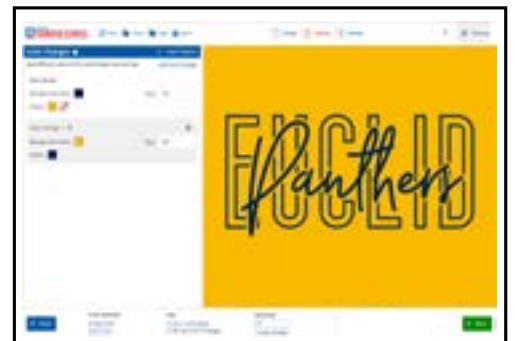

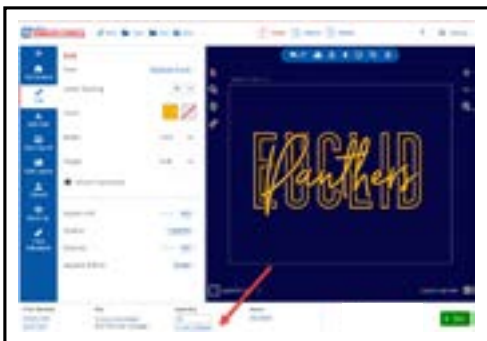

Art Proofs

Got a job with a lot of names, art changes, re-drawing or combining of files? Take the stress out by ordering an Art Proof. You will have the opportunity for 2 revisions and will be supplied with a high quality .PNG file for you to show to your customer. Place your transfer order with confidence.

Color Changes

Save money when ordering screen printed transfers of the same design in different colors. Color changes allow you to order the same design without being charged for multiple separate orders in different colors. Color changes can also be applied to multi-color designs.

For example, a local school wants the same design in gold on 15 navy shirts and in navy on 20 gold shirts, the color change allows you to receive pricing for 35 shirts, plus a \$20 color change fee, rather than placing two orders. To enter a color change, click on the 'Color Change' button under the Quantity field on the main design screen in Easy View®. Then click, 'Add Color Change' to enter the additional quantities and colors.

For \$20 you get the total quantity price break which will save you money every time.

Turnaround & Shipping

We are Transfer Express for a reason - we move fast. Once you place an order, we get the ball rolling. Our helpful and knowledgeable customer service is here to help you when needed.

Full Color Transfers:

\$25 per order (must be in before 3 pm ET and is for a 1 day rush; under 500 pieces) No rushes available on UltraColor MAX™ orders.

Delivery

Orders ship F.O.B., Mentor, OH or Chandler, AZ, by FedEx or UPS (Canadian orders ship UPS). Quoted delivery times based on delivery of the common carrier. We cannot accept any liability for the failure of any carrier to fulfill a delivery time. We are not responsible for delays due to inclement weather or due to the carrier of your choice.

Handling Fee

A \$3.95 is assessed when using a third-party shipper.

Canadian Dealers

Promotional shipping rate of \$30.00 per package when shipping to a Canadian province. Deliveries are UPS Ground and may be subject to extended surcharges. \$30.00 promotional rate includes door-to-door delivery and brokerage fees.
